

SAP® Certified
Mobile App

Personalized Access to HR Data Anywhere, Anytime Is Crucial To Effective Resource Management

Innovapptive's mManager Mobile App for SAP HR, gives your on the run managers access to critical HR and finance information to make real time decisions and minimize disruption and increase productivity. Implementation of effective corporate strategies requires adoption of process discipline, aligned to corporate objectives. mManager Mobile App for HR gives role based access to information to plan, measure, analyze and align objectives with those strategies. The mobile app helps managers attract, engage, and retain key talent to be ready to execute.

Build a Roster of Strong Leadership and Reward

The mManager Mobile App for SAP HR empowers managers to become more productive, effective and proactive and run their assigned departments in line with corporate objectives. Managers have an extremely busy schedule and hardly find time between meetings to be on a desktop and execute mobile self-service functions. A role based Mobile self-service solution helps them make real time decisions for executing human capital, financial, and operational management strategies.

Reduce Overhead Costs with Push Notifications, Monitoring and Budget Planning

mManager Mobile App's alerts and push notifications enables your managers to make smarter decisions on the basis of financial and logistical information and to proactively manage employees, budgets, and Assets. Push notifications for critical cost data help minimize cost overruns. Using the mManager mobile app, managers can drill down to the root cause of the problem, anywhere, anytime without lengthy correspondence with other departments. Correction requests can be created right from the mobile app and routed to the appropriate individual. Managers can monitor the status of the correction request right from their mobile device.

"Innovapptive's mManager mobile app provides fast access to important information, frees managers from mundane administrative tasks and drive enterprise wide productivity"
